---

The first annual Rural Task Force Conference will be held directly after the RTMW in the same conference room on March 30th in Mt. Pleasant. This event is part of the statewide effort going on now to help with the administration of the program. It is being developed by the RTF Education subcommittee. The conference will run from 1:00 – 5:00. Please add this event to your calendar along with the others.

A separate event registration form will be provided by MDOT through an email. You must register for both events separately. RTMW register is through MPTA, RTF registration is through MDOT Local Agency Programs.
