

## **Program Manager needed for the Clean Transportation Technologies Industry**

Are you looking for a position where you can truly make a difference? This leadership role at CALSTART will support Small and Rural Transit Bus Operators throughout the country to help advance the adoption of new technology transit buses, infrastructure and other new modes of transportation. This includes Low Nox Engines, Hybrids, Zero Emission Buses, and new modes of transit to improve the efficiency of the fleets.

CALSTART is nationally and internationally recognized company with offices in multiple states with more than 25 years of experience. The company's mission is to improve air quality, combat climate change, strengthen the economy, and create jobs by growing the clean transportation technology industry. This role is located in our Troy, Michigan office and will work with managers in the Northeast, Midwest, Colorado and the Central Valley of California.

This ideal candidate will have a passion for the CALSTART's mission, along with demonstrated outreach skills, analytical capabilities, and knowledge of rural and urban transit bus operations and the differences between the two. Must be skilled at relationship building, strategy execution and have the experience needed to support small transit bus fleets.

We want a program leader who is can provide laser focus for the organization, and has sound knowledge of new and emerging transit bus technologies. These technologies can include electric hybrid, fuel cell, all-battery electric, and advanced compressed natural gas and drivetrains, alternative fueling infrastructure and/or connected and automated bus technologies.

**California Employers Association is the recruiter for CALSTART.**
